to the promulgation of the Stock Exchanges (Corporatisation , Demutualization and integration) Act 2012 (The Act), the ownership in a stock exchange has been segreagated from the right to trade on the exchange. Accordingly, the Company has received equity shares of LSE and a trading Right Entitlement (TREC) in lieu of its membership card of LSE. The Company's entitlement in respect of LSE's shares is determined on the basis of valuation of assets and liabilities of LSE as approved by the SECP and the Company had been allotted 843,975 shares of the face value of Rs. 10/- each, out of which 506,385 shares are kept in blocked accounts and divestment of the same will be made in accordance with the requirements of the Act within two years from the

The cost/book value of the LSE membership card amounts to Rs. 9.20 million as at June 30, 2013. In the absence of an active market of the shares of LSE and TREC, the carrying value of the membership card had been previously allocated between the shares (financial asset) and TREC (an intangible asset) on the basis of value determined for minimum capital and face value of shares. However, being prudent, the value attributable to 506,385 shares kept in blocked accounts is assumed to be nil by the management. .
